

PTFE Clear Expansion Joint Guards

Ideal for Acid / Caustic / EI15 Oil and Diesel mist prevention

The PTFE-Clear shield is manufactured from Teflon coated fibreglass, with wide central band of clear Teflon (ETFE). This permits visual inspection of the valve and any leaking fluid.

The easy to fit, lock tight, fastening system comprises a Velcro strip coupled with a braided 100% Teflon coated fibreglass draw string. When tightened the fabric is drawn over the flange bolts toward the pipe wall thus eliminating a lateral spray out.

For a detailed quotation please confirm key dimensions "A" "B" & "C" below.

Specification

Orange Cloth	:	PTFE coated fibreglass
Central Section	:	100% ETFE
Stitching	:	PTFE coated fibreglass
Pull Cords	:	PTFE coated fibreglass
Max. Temperature	:	150 Deg C
Flange Ratings	:	ANSI / DIN / BS
Sizes	:	½" to 48"
Leak Detection	:	Visual
Typical Applications	:	Oil (fuel,lube,seal, etc) Acids, Caustics, Corrosives

Delivery
